

Testosterone Cypionate 200mg/mL

Not intended to diagnose, treat, prevent, or cure any disease
For intramuscular or subcutaneous use only

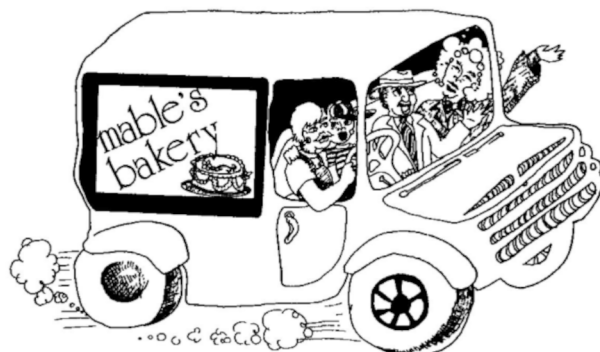

Each mL contains testosterone cypionate (200mg), benzyl benzoate (224mg), benzyl alcohol (25mg), and MCT oil from coconut (0.6mL). Each vial contains approximately 7mL.

Recommend researching potential side effects and complications of hormone replacement therapy before use – <https://diyhr.t.wiki/transmasc> is a great place to start!

Email mablesbakerymutualaid@proton.me with any questions, to report any issues or to share your results.
